Individual Services

Not all resumes are created equal, and neither is the work it takes to write them. Your rate is based on where you are in your career, because a recent grad and a VP are telling two very different stories. Both matter. Both get my full attention. Here is how it breaks down.

Professional Resume Writing

POPULAR

A fully custom, ATS-optimized, achievement-focused resume written in your voice and tailored to your target roles. Includes a polished branded version AND a clean ATS version, because you should never have to choose. This is not a template. This is your story, told right.

CAREER LEVEL	WHO THIS IS FOR	INVESTMENT
Recent Graduate	<i>You are just getting started. Let us make sure the world knows you mean business.</i>	\$225
Frontline Worker	<i>You show up, do the work, and keep things running. Your resume should say that loudly.</i>	\$275
Early Career 1-5 yrs	<i>You have experience now. Time to stop writing like you are apologizing for it.</i>	\$350
Mid Career 5-10 yrs	<i>You are ready for the next level. Your resume needs to walk in the room before you do.</i>	\$495
Senior Level 10-15 yrs	<i>Director energy deserves director presentation. Let us get your resume to the table.</i>	\$650
Executive 15+ yrs	<i>At this level your resume is not a document. It is a positioning statement. Treat it like one.</i>	\$895

LinkedIn Optimization

This is not a copy-paste-your-resume-into-LinkedIn situation. We are talking custom banners, headshot guidance, a headline that actually sounds like you, and an About section that makes recruiters stop scrolling. Oh, and I stay on the phone with you while you make the updates in real time. Consider me your personal hype coach with a Wi-Fi connection.
